- VOLUNTEERING

## EDUCATION

Kwame Nkrumah University of Science and Technology  
2019-present  
Computer Engineering **CWA** – 61.82

## EXPERIENCE

### HTML and CSS Experience

To prove my experience in HTML and CSS, I have both a certificate on HTML and CSS on solo learn

#### Link to HTML certificate

<https://www.sololearn.com/Certificate/1014-17676753/jpg/>

#### Link to CSS certificate

<https://www.sololearn.com/Certificate/1023-17676753/jpg/>

In order to help practice and improve on my HTML and CSS skills, I started practicing on creating my very own website for my future career as a developer. I have given a link to my GitHub page to where I uploaded it.

<https://github.com/TheDarkSlimmer/Future-Portfolio-Website.git>

More and more improvements will be added as I keep working on improving myself as a developer. I also thought it would be great if I kept on practicing on my HTML and CSS skills and also have something to refer to every time I work on HTML and CSS so i decided to start taking a Udemey course as well

## MORE ON EXPERIENCE

### JavaScript Experience

I also have a certificate on solo learn to prove my experience in JS.

#### Link to JS certificate

<https://www.sololearn.com/certificates/course/en/17676753/1024/landscape/png>

The certificate is just the first step. I am currently learning a JS Udemy course to practice and understand JS more.
